Ms. Oliviya Mondal Complainant

vs

ECO X-ray & Imaging Institute..... Respondent/ Respondents

ORDER SHEET

Office Note	Order No.	Date	Order
	1.	21/12/2023	<p>The complaint would relate to questioning of PET-CT scan report dated October 4, 2023 at the CE.</p> <p>PET-CT scan report would depict multiple lesion including the bigger one measuring about 7.2/6.6 cm. On the basis of such report the treatment was done by administrating chemotherapy at Medica, Kolkata. However, subsequent ultrasound report (October 23, 2023) would give the picture of lesion measuring about 3.8/3.4 cm.</p> <p>The complainant would contend, within such a short time and with only one dose a chemotherapy in between, it would not be possible for the mass to reduce</p>

		<p>to such an extent.</p> <p>We have heard the concerned doctor who did the PET-CT scan.</p> <p>There was a gap of 19 days in between the two reports. The patient had one dose of Chemotherapy on October 11, 2023.</p> <p>Our experts present at the panel would prefer to give benefit of doubt to the concerned doctor as the question can not be effectively answered in view of one dose of chemotherapy in between the two reports.</p> <p>We grant liberty to the complainant to question the original report referred to above, before the appropriate body of expert being the West Bengal Medical Council as against the concerned sonologist, if she so desires.</p> <p>The complaint is disposed of accordingly.</p> <p>Sd/- The Hon'ble Chairperson</p> <p>Sd/- Prof. (Dr.) Sukumar Mukherjee – Member</p>
