ORDER SHEET

Office Note	Order No.	Date	Order
	1.	28/04/2025	<p>The complaint would relate to difference in the reports in a case of urine examination.</p> <p>The first sample was drawn on February 28, 2025. The said report was collected by the complainant on 2nd of March. Complainant contacted the concerned physician on 4th of March who advised repeat test that was done on 6th of March in two other laboratories. By the span of six days the report differed.</p> <p>Our esteemed medical members are of the opinion that gap of six days would be a relevant factor in getting a different report and it would be very difficult to interpret all the three reports to blame one against the other.</p>

We thus decide not to interfere in this case.

The complaint is disposed of accordingly.
