ORDER SHEET

Office Note	Order No.	Date	Order
	1.	03/06/2019	<p>The complaint would relate to sterilization failure following caesarean section with tubectomy. The petitioner would contend, he had already two children and did not want any further child. However, despite tubectomy being done, the petitioner's wife conceived. They, however, decided to go with the baby and ultimately one male child was born on April 11, 2019.</p> <p>We have examined the discharge certificate that would show, the tubectomy had been done with caesarean. The doctors present are unanimous of the view, that might be a case of failure and can not be termed as medical negligence. The petitioner could have asked for terminated of pregnancy at the earlier stage. They decided to have the child; hence, we do not proceed further with the complaint and dispose of the same accordingly.</p>
