Arup Bhattacharjee..... Complainant

vs

AMRI Hospitals Limited..... Respondent/ Respondents

ORDER SHEET

Office Note	Order No.	Date	Order
	1.	03/07/2019	<p>The patient was admitted in the clinical establishment for pituitary tumour for surgical intervention. There was heavy bleeding, as a result the surgeon decided to pack as according to him, the primary duty at that point was to stop the bleeding, and it was controlled. She was transfused four units of platelet and was transferred to ICCU and put on ventilation. According to the doctor, the patient party wanted neuro intervention by calling, but that facility was not available at the medical establishment. Hence, they, of their own, arranged for transfer of the patient to Institute of Neuro Science and ultimately the patient was shifted there.</p> <p>The petitioner would contend the surgery was unsuccessful. The patient was completely conscious while she was taken to the operation theatre, hence they would feel, it was a case of sheer medical negligence for which the patient is now in vegetative state.</p> <p>The petitioner has already approached the West Bengal Medical Council as against the surgeon. Such complaint is awaiting decision at West Bengal Medical Council. It would be proper for us to permit the petitioner to pursue his complaint before the Medical Council. We also grant him liberty to approach us</p>
