ORDER SHEET

Office Note	Order No.	Date	Order
	2.	13/06/2019	<p>The petitioner would complain, his surgery was unsuccessful. The petitioner has a stone measuring about 11 m.m. in left ureter. After first surgery, the stone was reduced to 8 m.m., however, the entire stone could not be removed. The doctor tried for second time when it was reduced to some extent. The entire stone could not be removed even at the third intervention. The petitioner would contend, it happened because of the negligence of the doctor. The expert present in the panel, would not be in agreement with the petitioner. According to the expert, it could happen in surgery as an exceptional case where unfortunately the petitioner was not successful in getting the stone fully removed. Since it is not a case of negligence we do not wish to intervene.</p> <p>The complaint is disposed of accordingly.</p>
