Akashdeep Dutta..... Complainant

vs

Apollo Gleneagles Hospital Limited.....Respondent/ Respondents

ORDER SHEET

Office Note	Order No.	Date	Order
	1.	27/11/2019	<p>This is an unfortunate incident where a diabetic mother gave birth to a child that would have medical complication and ultimately died of Asphyxia. The complainant, the father of child would allege, it was a case of 'brain damage' occurred during Caesarean C Section. They have already approached the West Bengal Medical Council. It is for the West Bengal Medical Council to decide as to the exact cause of complication, till then we have to wait. The mother is also present. She is rightly saying, she has approached the clinical establishment and not the doctor. Hence, the clinical establishment is obliged to explain her reason for such unfortunate complication. We fully appreciate her agony. However, such venture would be exercised by us once the West Bengal Medical council would give their decision on the treatment that was meted out to the child and the incident that happened during Caesarean C Section.</p> <p>We permit the complainant to approach us again after disposal of the West Bengal Medical Council if occasion so arises.</p> <p>Before we part with, we take strong exceptions to the conduct of</p>

the Clinical Establishment. We find, they have not supplied copy of their comments that they submitted before us to the complainant. We impose a fine of Rs. 5,000/- to be paid to the complainant within a week from date.
