Babu Yadav..... Complainant

vs

Lions Care Center.....Respondent/ Respondents

**ORDER SHEET**

Office Note	Order No.	Date	Order
	1.	14/02/2020	<p>This complaint would pertain to unfortunate death of a child soon after vaccination provided by the establishment that is a philanthropic institution.</p> <p>The complainant would contend before us, the child was quite healthy and did not have any disease at all. The concerned doctor, after check up, gave the vaccine and the child died soon thereafter. According to him, the death happened within one hour whereas the record would show, she died after about two hours of vaccination.</p> <p>On the last occasion, we adjourned the matter so that we could be getting assistance from the Police Authority providing post mortem report and the laboratory report of the vaccination sample. Today, we have received the report from the laboratory. The complainant has also obtained post mortem report from the police that is also</p>

shown to us. The laboratory report and the post mortem report would tally with each other. According to the report, the child had cough and cold that might be one of the causes of death. The laboratory report also says, that death could be due to "**anaphylaxis**" or may be due to "**pre- existing pulmonary disease**". The report also did not rule out possibility of allergic reaction. The report clearly mentioned, they did not find anything to suggest "**gross negligence**" from the part of the attending doctor, nurse and staff of The Lions Club, Durgapur.

In view of the said report and the post mortem report, we are unable to hold the establishment responsible for the death. It is open to the complainant to approach any other forum challenging the laboratory report and post mortem report if he is so advised.

The complaint is disposed of accordingly
